1	SEC. 2. FINDINGS.
2	Congress finds that—
3	(1) nearly 14,000,000 students have no place to
4	go after school hours, which is associated with high
5	rates of juvenile crime;
6	(2) studies show that almost $\frac{1}{3}$ of all public
7	high school students in the United States fail to
8	graduate;
9	(3) high school dropouts—
10	(A) on average, earn less than high school
11	graduates; and
12	(B) are more likely than high school grad-
13	uates to be unemployed;
14	(4) high dropout rates have a significant effect
15	on communities through—
16	(A) loss of productivity and revenues; and
17	(B) higher costs associated with incarcer-
18	ation, health care, and social services;
19	(5) students consistently cite a lack of interest
20	in core curriculum and a lack of relevancy to future

1	careers as the major reasons for dropping out of
2	high school;
3	(6) it is in the best interest of the United
4	States to ensure students are qualified to compete in
5	the global economy;
6	(7)(A) 80 percent of jobs are classified as
7	skilled jobs; and
8	(B) only 32 percent of high school graduates
9	are prepared for college;
10	(8) Microsoft's Bill Gates warned that Amer-
11	ican companies "face a severe shortfall of scientists
12	and engineers with expertise to develop the next gen-
13	eration of breakthroughs";
14	(9) business leaders have stated that a qualified
15	workforce is important to keeping jobs in the United
16	States;
17	(10) Corporate Voices for Working Families
18	has called for public and private efforts to create
19	after-school programs in which young people can de-
20	velop skills for the 21st century;
21	(11) opportunities for real-world learning and
22	seeing the connection between school and getting a
23	good job improve students' chances of staying in
24	school;

1 (12) students involved in after-school programs 2 have significantly higher school attendance rates, 3 score higher on mathematics and writing assess-4 ments, and are more likely to graduate from high 5 school than those who are not involved in such pro-6 grams; 7 (13) reinforcing core curricula by integrating 8 academic work within alternative course material 9 can lead to significant improvements in student 10 achievement and engagement, as shown by the Na-11 tional Research Center for Career and Technical 12 Education; 13 (14) after-school programs and community 14 partnerships offer youth opportunities— (A) to develop social and citizenship skills; 15 16 and 17 (B) to have access to a variety of mentors 18 and role models from their communities; and 19 (15) after-school programs can also provide op-20 portunities, for youth who have extra time, to experi-21 ence the academic enrichment, career exploration, 22 and skills development the youth need to succeed. 23 SEC. 3. PURPOSE. 24 The purpose of this Act is to establish and expand after-school programs and other similar programs—

1	(1) to improve high school student academic
2	achievement, overall school success, and graduation
3	rates by reinforcing core curriculum;
4	(2) to increase student knowledge of, and inter-
5	est in, high-demand career opportunities;
6	(3) to increase student engagement in learning
7	by—
8	(A) demonstrating the means by which
9	academic content relates to career opportuni-
10	ties;
11	(B) providing opportunities for civic en-
12	gagement and service learning; and
13	(C) providing students with marketable
14	skills; and
15	(4) to provide opportunities for students to
16	broaden curricula, to expose students to learning op-
17	portunities outside a core curriculum of study, and
18	to provide opportunities for students to gain credit
19	toward high school graduation through learning out-
20	side a traditional classroom.
