### Call and response: Afterschool programs stepping up during the pandemic

From the outset of the pandemic, afterschool programs have adapted and expanded their services to best meet the needs of the children and families they serve. Programs across Tennessee opened safely to provide emergency child care for essential workers, child care for others where possible, and virtual content and engagement where not. Many also opened food distribution sites. The Tennessee Afterschool Network purchased hotspots, devices, and phone cards for programs to distribute to improve connectivity for students, as well as offered Zoom rooms to support youth engagement and even tele-counseling and support groups for families who needed extra help.

#### A 2021 national survey of afterschool providers finds programs continue to provide:

They provide a variety of enrichment activities to complement school-day learning and offer educational and support services to the families of participating children.

In Tennessee, 21,279 children in 450 communities take part in a Community Learning Center.
