

# This is Afterschool in California

Throughout the pandemic, afterschool and summer programs adapted and expanded services to meet the needs of children and families. They are vital partners today in supporting students' well-being and academic growth. Yet, too many kids in California are being left out. Prior to the pandemic, a survey of California parents found that for every child in an afterschool program, **3 more would participate if a program were available**. These programs provide safe and supportive spaces to keep young people engaged in learning during a difficult and trying time. So it comes as no surprise that in a national fall 2020 survey, 75% of parents agreed that the experience of the pandemic made them appreciate teachers and afterschool providers more than ever before.

## Accelerating students' learning and growth

Students in afterschool programs in California are:

- Getting homework help – **78%**
- Interacting with their peers and building social skills – **84%**
- Taking part in STEM learning opportunities – **82%**

## Promoting healthy futures

Parents in California agree that afterschool programs are helping young people to:

- Learn life skills – **83%**
- Be physically active – **85%**
- Build positive relationships with caring adults and mentors – **83%**
- Access nutritious foods – **75%**
- Build confidence – **84%**
- Stay safe and out of trouble – **78%**

A 2018 evaluation of California's After School Education and Safety (ASES) and After School Safety and Enrichment for Teens (ASSETs) programs found that students participating in programs for 60 days or more attended school up to 17 days more than their non-participating peers, leading to an estimated \$183 million in increased average daily attendance funding for schools. Additionally, statistically significant differences were found when looking at school-day attendance among high school English language learners (ELL), where ELL ASSETs participants attended school up to seven days more than their non-participating peers.

## American Rescue Plan Funding Helping Increase Access to Afterschool and Summer Programs During the Pandemic

Over the past two years, an overwhelming majority of afterschool and summer program providers have been concerned about their program's long-term funding and future. Costs associated with recruiting and retaining staff, instituting new COVID-19 health and safety protocols, and adding program space to allow for social distancing are a few of the added expenses afterschool and summer programs faced through the pandemic. Funds from American Rescue Plan present a tremendous opportunity to help afterschool and summer programs support the children and families in their communities. For example, Lodi Unified School District, after collecting input from staff, students, and the community, invested a portion of its COVID-relief funding to support a new afterschool chess club, a science club, and a homework club to help students who were falling behind academically. Additionally, \$1 million of the district's Elementary and Secondary School Emergency Relief (ESSER) III funding has been allocated to support community learning hubs at 27 sites, which provide homework help and coordinate wraparound services for students.

## Supporting working families

Parents in California agree that afterschool:

-  Helps working parents keep their jobs – **84%**
-  Helps parents build connections to their child’s school day education – **77%**
-  Provides working parents peace of mind – **84%**

## A smart investment

Research spanning several states shows that every \$1 invested in afterschool programs saves at least \$3 by:

-  Increasing kids’ earning potential as adults
-  Reducing crime and juvenile delinquency
-  Improving kids’ performance at school

## California parents want investment in afterschool and summer programs

The overwhelming majority of parents in California favor public funding for afterschool and summer learning programs:

**88%**  
favor public funding  
for afterschool opportunities

**89%**  
favor public funding for  
summer learning opportunities

## 21<sup>st</sup> Century Community Learning Centers

21<sup>st</sup> Century Community Learning Centers (21<sup>st</sup> CCLC) are local before-school, afterschool, and summer learning programs that serve students attending high-poverty, low-performing schools. These programs engage students in hands-on learning activities aimed at supporting their academic growth, provide a variety of enrichment activities to complement school-day learning, and offer educational and support services to the families of participating children.

The 2021 Department of Education annual performance report of 21<sup>st</sup> CCLC found that among regular participants:

- 1 in 2** improved their language arts or math grades
- 7 in 10** improved their homework completion and class participation
- MORE THAN **3 in 5** improved their behavior in class

In California, **202,582 children in 724 communities** take part in a 21<sup>st</sup> Century Community Learning Center.

21<sup>st</sup> CCLC grants are the only dedicated federal funding sources that support local communities’ afterschool and summer programs.

Demand for programming in California is so great that **5 out of every 8** applications were not funded during the most recent competition.

## Transforming Lives

“During the pandemic, it was challenging because I was social distancing and not doing certain activities. But, my 21<sup>st</sup> Century [Community Learning Center] program has been a place where I’ve been able to meet new friends, communicate, and be social with others. I wasn’t a talker, but now I am! The mentors in my program also helped me stay on top of my work and encouraged me. Without my program, I wouldn’t have the grades I do now, and I wouldn’t be as social as I am. I wouldn’t be able to do a lot of things without my program.”

**Kyla Anderson**
