Afterschool Alliance Names Flagship Program's Buzzas One of 22 'Afterschool Ambassadors' from 19 States

Buzzas Will Work in Montana, Nationally to Expand Afterschool

Washington, DC – The Afterschool Alliance today announced the selection of Rosalie (Rosie) Buzzas, Director of Missoula's Flagship Program, to serve as a 2007-2008 Afterschool Ambassador. She is one of just 22 local leaders from 19 states selected for the honor. Each Ambassador will continue directing or supporting a local afterschool program while also serving a one-year Afterschool Ambassador term organizing public events, communicating with policy makers, and building support for afterschool programs.

"Afterschool programs keep children safe, inspire them to learn, and help working families," said Afterschool Alliance Executive Director Jodi Grant. "The public strongly supports afterschool programs and wants to see them expanded, but at the federal level and in many states, dollars for these programs are frozen or even shrinking. In her work as an Afterschool Ambassador, Rosie Buzzas will bring talent and experience to the challenge of making afterschool programs available to all families that need them. I look forward to working with her to share the good news about afterschool with parents, business and community leaders, lawmakers, and the media. We are proud to have Rosie on our team."

An afterschool community-based program, the Flagship Program partners with Missoula's largest school district to offer developmental skill-building activities to more than 7,000 students per year in 10 K-12 schools. Flagship's mission is to enhance the social, academic and cultural achievement of Missoula's youth to help them succeed in school and become healthy adults. The Flagship Program has participated in two national evaluations on afterschool which have shown strong results. Buzzas serves on the executive and steering committees of the Montana Afterschool Network and is a former four-term state legislator.

Each Ambassador will plan a major event for *Lights On Afterschool*, the Afterschool Alliance's October 18 nationwide rally for afterschool. Despite overwhelming public support, and an agreement embodied in the *No Child Left Behind Act* to steadily increase federal funding, federal support for afterschool has been flat or declining for several years. The *No Child Left Behind Act* authorized \$2.5 billion for afterschool this year, but funding is less than \$1 billion. The House of Representatives and Senate are considering increases for next year.

Afterschool programs offer young people safe, enriching, fun and engaging places to spend their afternoons. Youth in afterschool programs have been shown to perform better in school and have greater expectations for the future, while children who are unsupervised in the afternoons are at greater risk of becoming involved with crime, substance abuse and teenage pregnancy.

A groundbreaking study conducted for the Afterschool Alliance in 2004 (with funding from the J.C. Penney Co., Inc.) concluded that 14.3 million latchkey children have no adult

supervision in the afternoons and that the parents of 15.3 million children would send their child to an afterschool program if one were available.

The Afterschool Alliance is a nonprofit public awareness and advocacy organization working to ensure that all children and youth have access to quality afterschool programs. More information is available at www.afterschoolalliance.org.
