Evanston's Petersen Selected as One of Just 15 'Afterschool Ambassadors' in United States This Year

Tamra Petersen Will Work in Wyoming, Nationally to Increase Students' Access to Afterschool

Washington, DC – The [Afterschool Alliance](#) announced today that Tamra Petersen, 21st CCLC Grant Coordinator at the Uinta B.O.C.E.S. #1 Education Center, has been selected to serve as a [2016-2017 Afterschool Ambassador](#). She is one of just 15 leaders from across the nation chosen for the honor this year. Each Afterschool Ambassador will continue directing or supporting a local afterschool program while also serving a one-year Afterschool Ambassador term, organizing public events, communicating with elected officials and policy makers, and in other ways growing support for afterschool programs.

“We are thrilled that Tamra will serve as an Afterschool Ambassador this year,” said Afterschool Alliance Executive Director Jodi Grant. “She is a dedicated champion for quality afterschool and summer learning programs. I know she will mobilize business, community and faith leaders, lawmakers, educators, parents and others to increase resources for afterschool programs, which keep students safe, inspire them to learn and help working families. These programs offer hands-on learning opportunities, homework help, mentors, science and technology, access to healthy snacks and meals, sports and fitness, arts programming, civic engagement, and much more. I’m eager to work with Tamra to bring us closer to the day when no children or youth are unsupervised and at risk after the school day ends.”

“I am delighted to support the Afterschool Alliance’s work to increase resources for afterschool programs, here and around the country,” said Petersen. “In my 11 years working in this field, I’ve witnessed firsthand the many ways that afterschool programs give students opportunities to explore their interests and discover their passions, while giving parents the peace of mind that comes with knowing their children are safe and supervised, with engaging, educational activities, during the afternoons. I look forward to raising awareness and support for the out-of-school-time opportunities all students need.”

The Evanston afterschool program is a collaborative effort of the Uinta B.O.C.E.S. #1 Education Center, Uinta County School District #1, the 21st Century Community Learning Centers grant funded through the Wyoming Department of Education, and key partners such as the Evanston Child Development Center and the Boys and Girls Club of Evanston. In addition to afterschool and summer programming at the two community-based centers, programming is offered at all four of Evanston’s elementary schools, contributing to upwards of 500 students participating on any given day. Activities are designed to link to the regular-school day and provide diverse

opportunities including homework help and academic support, robotics, science activities, book clubs, recreational sports, art, and music.

Each Ambassador will organize a major event for *Lights On Afterschool*, the Afterschool Alliance's annual rally for afterschool, to be held on October 20 this year. Last year, 1 million people participated in some 8,000 *Lights On Afterschool* events across the United States and at U.S. military bases worldwide.

The 2016-2017 Afterschool Ambassadors are:

- **Arizona:** Jeremy King, Community Services Supervisor, Kid Zone Enrichment Program in Tempe;

The [America After 3PM](#) household survey of more than 30,000 families, commissioned by the Afterschool Alliance, found that participation in afterschool programs has increased to 10.2 million students nationwide, up from 6.5 million in 2004. But the unmet demand for afterschool programs has increased as well. Today, for every child in an afterschool program, there are two more whose parents say they would participate, if a program were available. Unmet demand is

especially high in rural communities and communities of concentrated poverty. One in five students in the United States today is unsupervised after the school day ends.

A large and growing body of evidence demonstrates improvements in attendance, behavior, academic achievement and more among children in afterschool programs. Researchers have also found that afterschool programs encourage increased parental involvement – an important building block for student success.
