St. Paul, Minnesota’s Hernandez Chosen to Be One of Just 15 ‘Afterschool Ambassadors’ in the Country This Year

Nicole Hernandez Will Work in Minnesota and Nationally to Increase Access to Afterschool Programs

Washington, DC – The Afterschool Alliance today announced that Nicole Hernandez, Youth Development Director at Children’s Defense Fund-Minnesota, has been selected to serve as an Afterschool Ambassador for the Afterschool Alliance in 2019-2020. She is one of just 15 leaders in the United States chosen for the honor this year. Ambassadors will continue their work supporting local afterschool programs while serving the one-year Afterschool Ambassador term, organizing public events, communicating with policy makers and community leaders, and in other ways increasing awareness and support for afterschool and summer learning programs.

“We are delighted that Nicole Hernandez will serve as an Afterschool Ambassador this year,” said Afterschool Alliance Executive Director Jodi Grant. “With federal funding for quality afterschool and summer learning programs at risk, we need strong advocates like Nicole. Her work will mobilize parents, educators and business, community and faith leaders, among others, to send the message that afterschool programs are vital to the future of our children, families, and communities. Afterschool programs keep kids safe, inspire them to learn and help give working families peace of mind. They offer hands-on learning opportunities, opportunities to think critically and collaborate, homework help, mentors, science and technology, healthy snacks and meals, sports and fitness, arts programming, college and job prep, and much more.”

“I am eager to join the Afterschool Alliance in building support for afterschool programs,” said Hernandez. “In my 28 years working in the field, I’ve seen time and time again the extraordinary difference that afterschool makes in the lives of young people in Minnesota. These programs help students explore their interests, discover their passions, and learn to communicate with peers and adults while giving parents the security that comes from knowing their children are safe and supervised, with opportunities to learn and grow after the school day ends. I look forward to building support for the out-of-school-time opportunities all students need.”

The Children’s Defense Fund (CDF) Leave No Child Behind® mission is to ensure every child a Healthy Start, a Head Start, a Fair Start, a Safe Start and a Moral Start in life and successful passage to adulthood with the help of caring families and communities. CDF was founded in 1973 by civil rights leader Marian Wright Edelman, and was established in Minnesota in 1985. From its inception, CDF has worked to build the capacity of communities throughout the U.S. and specifically here in Minnesota to raise their voices and advocate for improved policies and
programs for children. We pay particular attention to the needs of those children who experience greater barriers, including children of color and children from low-income families.

A key component of Children’s Defense Fund’s work is our nationally recognized Freedom Schools® program. CDF Freedom Schools programs were inspired by the Freedom Schools run by civil rights and church organizations, with college students from across the nation, during the 1964 “Mississippi Freedom Summer.” In the early 1990s, Children’s Defense Fund developed the current Freedom Schools model, which began operation in Minnesota in 1996. Children’s Defense Fund-Minnesota partners with schools and other organizations to provide high quality, culturally relevant summer and after-school programming with a focus on literacy enrichment, civic engagement, leadership development, and physical and mental health. These expanded learning opportunities are aligned with our mission of ensuring that all children are able to thrive academically, personally and socially.

As a local branch of the national CDF organization, CDF-MN has been a leader in supporting the development and expansion of Freedom Schools programs in Minnesota. CDF-MN partners with schools and community organizations across the Twin Cities Metro Area to provide Freedom Schools programming to over 1,500 children and youth at 14 sites each year. Of those 14 sites, two currently receive 21st Century Community Learning Centers funding to support afterschool and summer education programs that will help students improve academic performance and develop a love for learning.

Each Ambassador will organize a major event for Lights On Afterschool, the Afterschool Alliance’s annual rally for afterschool, which will celebrate its 20th anniversary this year. Most Lights On Afterschool events will be on or around Thursday, October 24. Last year, 1 million people participated in some 8,000 events across the United States and at U.S. military bases worldwide.

The America After 3PM household survey of more than 30,000 families, commissioned by the Afterschool Alliance, found that participation in afterschool programs has increased to 10.2 million students nationwide, up from 6.5 million in 2004. But the unmet demand for afterschool programs has increased as well. Today, for every child in an afterschool program, there are two more whose parents say they would participate, if a program were available. Unmet demand is especially high in rural communities and communities of concentrated poverty. One in five students in the United States today is unsupervised after the school day ends.

A large and growing body of evidence demonstrates improvements in attendance, behavior, academic achievement and more among children in afterschool programs. Researchers have also found that afterschool programs encourage increased parental involvement – an important building block for student success.
